Jeffrey Nelson awarded
"Employee of the Year"

Scheduled appointment

Work Experience -

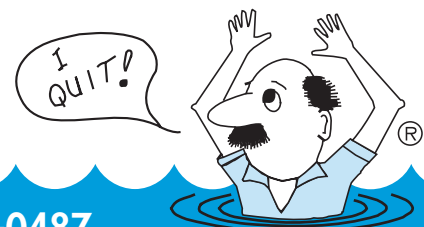

Jeffrey owned his own home improvement contracting business for 15 years prior to joining the Basement Systems team. He became interested in basement waterproofing having a close friend at Basement Systems and running into their crews in the field. He was impressed at witnessing how truly grateful customers were to have their water problems solved.

The sales manager, Ron Canelli, a longtime friend of Jeffrey's, realized what a great asset he would be to the company. After many months of Ron's recruitment efforts, Jeffrey came on board with Connecticut Basement Systems as a System Design Specialist.

Jeffrey and the entire Connecticut Basement Systems team uphold the stringent quality standards of their company. Jeffrey has been thoroughly trained and has earned the highly esteemed title "CERTIFIED Waterproofing Professional" through the Basement Systems International Waterproofing Contractor Network.

Connecticut Basement Systems is the exclusive regional dealer for the Basement Systems International Waterproofing Contractor Network - a group of more than 300 of the best waterproofing contractors in the world, who have exclusive access to patented products, comprehensive training and support through the international company.

Jeffrey enjoys meeting with homeowners and helping them solve their basement water problems, enabling them to get more out of their homes. In his free time Jeffrey enjoys fishing with his boys or flyfishing for game fish. In the winter he can be found snow shoeing throughout New England.
